History

Carpet Village started in May of 1969 under the name of Moore's Carpet Services as a carpet installation company. Five years later, in April of 1974, **Carpet Village** was born by expanding to a full service flooring and wallcovering company.

Since that time Carpet Village has become one of the largest flooring and wallcovering companies in Southwestern Virginia. We have completed major new and renovated jobs throughout the states of Virginia, South Carolina and Tennessee.

Carpet Village has provided flooring and wallcovering to the Commonwealth via Virginia State Contract for nearly two decades and to the public in general for over 32 years.

Service

Carpet Village is dedicated to ensuring your job is completed professionally and according to your schedule. Our sales consultants will monitor your project from start to finish. Your satisfaction is our number one goal.

Carpet Village understands that selling the product is only one aspect of our job. That is why we only use professionally trained technicians to install your flooring or wallcovering.

Products

Carpet Village offers a large selection of products to choose from, all from the top manufacturers of commercial flooring and wallcovering. Our buying power enables us to provide our clients with the best pricing possible.
