

Retractable Screens...

Provide a stylish, versatile, and highly functional alternative to conventional screens.

Our screens roll-up into an attractive, low-profile housing and when not in use...

- they are out of the way
- are not blocking your view
- do not detract from attractive entry doors

Design allows maximum amount of ventilation

Slides easily and will not come off its track

Made of the highest quality materials...

- powder coated extruded aluminum finish
- mesh is made of tear resistant fiberglass

Adaptable to any door...

- New or Existing Construction
- In-Swinging, Out-Swinging, or Sliding Doors
- Entry, Patio, & Double Doors

Adaptable to situations where conventional screens will not work...

- Low Overhangs
- Narrow Openings with Obstacles

Limited lifetime warranty

Available in 6 standard and over 35 custom colors

Retractable Awnings...

Protects you and your family from the sun's harmful UV rays.

Makes your outdoor living space more enjoyable on those blistering hot summer days.

Saves you money on your cooling costs by lowering the temperature inside your home because of a reduction in solar heat gain.

Our awning's durable and attractive design, together with dozens of Sunbrella fabric choices to compliment your home's exterior.

Changes your stark, cold feeling deck to a warm and cozy outdoor living space.

The awnings are self-supporting, meaning that there are no cumbersome and unsightly poles or supports.

Available in widths up to 40' and projections up to 17'.

Adjustable pitch allows fine tuning to your needs.

Several valance styles are available.

While the convenience of a motorized operated is preferred by most people, a manually operated option is available.

Aluminum Railings...

Our attractive, high quality aluminum railings add a touch of class and elegance to your home.

The post and rails are strong but their slim design is not over-bearing.

The railings are fabricated using the latest technology in aluminum alloys and have a highly durable powdered coated finish.

Finish is available in 6 popular standard colors or over 35 semi-custom colors. Custom colors are also available.

The finish is guaranteed to not split, peel, flake, or blister. Great for coastal areas.

Available in 3 different picket styles, or tempered glass.

Great for use on decks, balconies, swimming pools docks, and staircases.

The ease of installation, makes it a great product for a "do-it-yourselfer"... or we can install it.

Drop Down Screens...

Are a great product for large openings where either insect or sun control is needed.

Available in widths to 25' and heights to 16'.

Either manual or motorized operation.

Made of sturdy corrosion-resistant extruded aluminum with a durable powder coated finish.

Applications are endless... double doors, picture windows, porches, balconies, lanais, gazebos, garages, workshops.

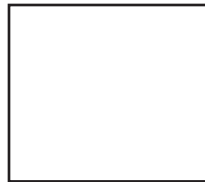

Will not block your view, or are not constantly in sight, because they retract when not in use.

A very unobtrusive design will not detract from your home's beauty.

Durable fiberglass and vinyl fabrics are available in several colors and degrees of openness to meet your needs.
